### A.6.3 System-Level Disclosure

**“AI assistance was used for non-material review within this platform.”**

## A.7 Placement Guidance

Disclosures should be placed where they are visible to the intended audience. Recommended locations include:

- Document footer
- Preface or acknowledgments
- Commit messages or PR descriptions
- Video descriptions or end-screens
- Caption metadata
- Platform-specific disclosure fields

Placement must not obscure or misrepresent the nature of the assistance.

## A.8 Adaptation and Customization

Organizations may adapt these templates to meet internal policies or regulatory requirements provided:

- The meaning remains consistent
- The disclosure clearly indicates *non-material* AI assistance
- The human author remains the primary creator

Custom templates should not imply material AI authorship.

## A.9 Summary

Annex A provides standardized, flexible templates for disclosing non-material AI assistance across text, code, audiovisual, and collaborative workflows. These templates support consistent, transparent communication aligned with the AIRA Standard.
